

All About... The Fox

Foxes are members of the dog family. They are quite small animals and are just slightly bigger than most cats. Foxes live all over the UK.

Amazing Facts

- Foxes have pointy ears and have great hearing.
- Foxes can run really fast.
- Foxes sometimes catch mice just to play with them.

What do foxes eat?

- Foxes eat small animals such as birds and mice.
- They eat berries and fruit.
- Foxes eat vegetables and seeds.

Did you know?

Foxes are nocturnal. This means they move around and eat at night but sometimes they can be seen during the day. They like to sunbathe.

Where do they live?

- Foxes live in dens.
- They dig down into the earth to make their den.
- Most foxes choose to live in the countryside but some live in towns and cities.

They move around and eat at night.

8. Why do you think most foxes choose to live in the countryside?
This question could have many answers.

All About... The Fox

Foxes are a member of the dog family, and are found throughout the United Kingdom. Though they are like dogs, they are only a little bit bigger than most cats. The male fox is called a dog and a female fox is called a vixen.

Amazing Facts

Foxes have brilliant hearing. They can hear something as quiet as a watch ticking, from 30 metres away! This would be like hearing someone whisper from across the playground. As well as having great hearing, they can run really fast. They can run up to 30 miles per hour, which is really fast.

Did you know?

They are mammals, which means they have warm blood and fur. Even though they are nocturnal (move around and eat at night), they can be seen during the day. They like to sunbathe.

What do foxes eat?

Foxes are carnivores, which means they eat meat, but they will eat berries off bushes and even look in rubbish bins for leftovers. Baby foxes, called kits, drink milk from their mothers before they start eating more usual foods like worms! Foxes will also hide food to come back and eat later.

Where do they live?

Foxes are found in all sorts of places, or habitats. They live with other foxes in dens in the countryside but will also make their homes in towns and cities. You might spot one if you are out on a dark night.
